All: just a quick note to let you know that we hired a new Permit Unit Supervisor at the Department of Ecology, Water Quality Program in Spokane and her name is Virginia Darrell (see pic). Virginia (she also goes by the name Ginny) replaces Len Bramble as the engineering supervisor for all of our water quality permitting work here in eastern Washington. There are many aspects to this important position. It is my hope that we can continue to develop good, productive working relationships with each of you. Our goal is to be service and solution-oriented as much as possible. Ginny starts her new job on Monday July 16, 2007.

You are welcome to share this information with anyone who needs to know (and I apologize if I've left anyone off the address list). After Ginny has a chance to catch her breath (and finish up her current job in Solid Waste), we will want to schedule a time to visit and do some introductions. We will be in touch. Meantime, I want this to be a seamless transition (as much as possible) and I hope that you'll be able to offer Ginny support and cooperation as she comes up to speed in her new position. Thank you!

James M. Bellatty
Water Quality Section Manager
Washington Department of Ecology
Eastern Regional Office
4601 N. Monroe Street=2
Spokane, Washington 99205-1295

Subject: New Permit Unit Supervisor @ ERO-WQ

Greetings!

I have the privilege of informing you that Virginia Darrell has been selected as the new Permit Unit Supervisor in the the Water Quality Program at the Eastern Regional Office in Spokane. Virginia replaces Lenox Bramble who recently moved with his family to Northport, Florida. Virginia comes to the Water Quality Program from the Solid Waste and Financial Assistance Program at the Department of Ecology where she has been an Environmental Engineer for the past three years. Prior to her work at Ecology, Virginia was an Environmental Engineer for the Washington State Department of Health (Drinking Water and Wastewater Management) and Spokane County (Stormwater). Virginia also worked for CH2M Hill Engineering in Spokane as a Project Engineer and Manager.

Virginia is a graduate of Washington State University and is currently enrolled in the Master of Arts Program at Gonzaga University in Organizational Leadership.

Virginia's starting date is July 16, 2007. Please welcome Virginia to her new position as the Permit Unit Supervisor @ ERO!
